

Pentair Hypro GuardianAIR Spray Nozzles - GA

The Hypro GuardianAIR is the only spray nozzle with a pattern and droplet size scientifically designed to maximize coverage and productivity at spray rates around 10 GPA.

* Inclined spray pattern of 10-13° provides increased spray coverage

* Optimized for performance and high productivity, especially for application rates around 10 GPA

* Reduce drift and environmental impact while increasing droplet deposition and retention on the foliage with air-induced spray

* Provides better coverage with more drops per gallon compared to other common air-induced spray tips

Specifications

Product:GuardianAIR

Pattern:Tapered Flat Fan

Material:Polyacetal

Pressure Range:20-115 PSI (1-8 BAR)

Common Use:Plant Health

Technology:Air Induction

Spray Angle:110 Degrees

Tip Only	Nozzle Size	Color	Droplet Size Range	Strainer Mesh
